Q2: Please reply to the thread "test post" in the "Discussion" tab on iLearn. Please also create a new thread there named Homework n, where n is in 1,2,...,10 and n hasn't appeared in an earlier thread. (If you can't create a thread then write "can't create a thread" for question 2. Otherwise write "both worked", or "neither worked", or describe what happened.)

both worked.
